## **Textile-Surface Adult Diaper With Waistband**

Tekstil Yüzeyle, Bel Bantlı  
**Yetişkin Hasta Bezi**

## **Lorina Adult Diapers are tested by 'DR | KOZIEJ'**

Dr Koziej is a research center based in Poland that conducts clinical trials.

Clinical tests are more sensitive than dermatological tests and designed to ensure that the diapers are compatible with the human body at its most sensitive level.

Diapers are tested for adults over 65 to provide the greatest possible safety in order to exclude, as far as possible, subsequent skin reactions for the buyer and the entire consumer group.
